Sujuu

A small book of Finnish balance

Eight Finnish words for a steadier day

Hiljaa hyvä tulee.

Slowly, good comes. A Finnish saying.

WELCOME

Make yourself at home

2

ABOUT THIS BOOK

The Finnish words and sayings are real and in everyday use. The lines in large type and the things to try are Sujuu's own, written with each word in mind.

None of this is medical advice.

WHAT THE RESEARCH SAYS

Finland's happiness ranking is best explained by trust and well-run institutions, not by any one habit. The Helsinki nature studies measured how people felt after short visits. The sauna studies followed Finnish men over twenty years and found healthier hearts among frequent bathers, without proving the sauna was the cause. Sisu research found a helpful side and a harmful one.

TO CARRY WITH YOU

KOHTUUS
Find the right spot, then stop.

SUJUA
Smooth, not fast.

HILJAISUUS
A pause doesn't need filling.

LUONTO
The nearest green counts.

JOKAISENOIKEUDET
Walk lightly; leave it as you found it.

TALKOOT
Many hands, then coffee.

SAUNA
The habit matters more than the heat.

SISU
For the hard moment, not every moment.

Finland is often called the happiest country in the world. Ask Finns why, and they'll talk about trust, fairness and a society that works, long before anything you could buy.

Still, everyday Finnish life holds some good habits: a sense of enough, ease with quiet, the forest close by, the weekly sauna, and neighbours who turn up to help. This little book gathers eight of them.

Read a page, or none, and come back when you like.

The lines in large type are Sujuu's own. The Finnish sayings are traditional.

1 · THE RIGHT MEASURE

Kohtuus

KOH-toos · moderation, fairness

Find the right spot, then stop.

4

MORNING	Five minutes of planning. Three things, or a time to stop. Sujua, kohtuus
WORKING	One task at a time. Steady over rushed. Sujua
THE HARD PART	Spend your sisu on one thing, then rest. Sisu
MIDDAY	Fifteen minutes in the nearest green. Luonto
AFTERNOON	One quiet hour, notifications off. Hiljaisuus
EVENING	Stop when you said you would. Leave the day in place. Kohtuus

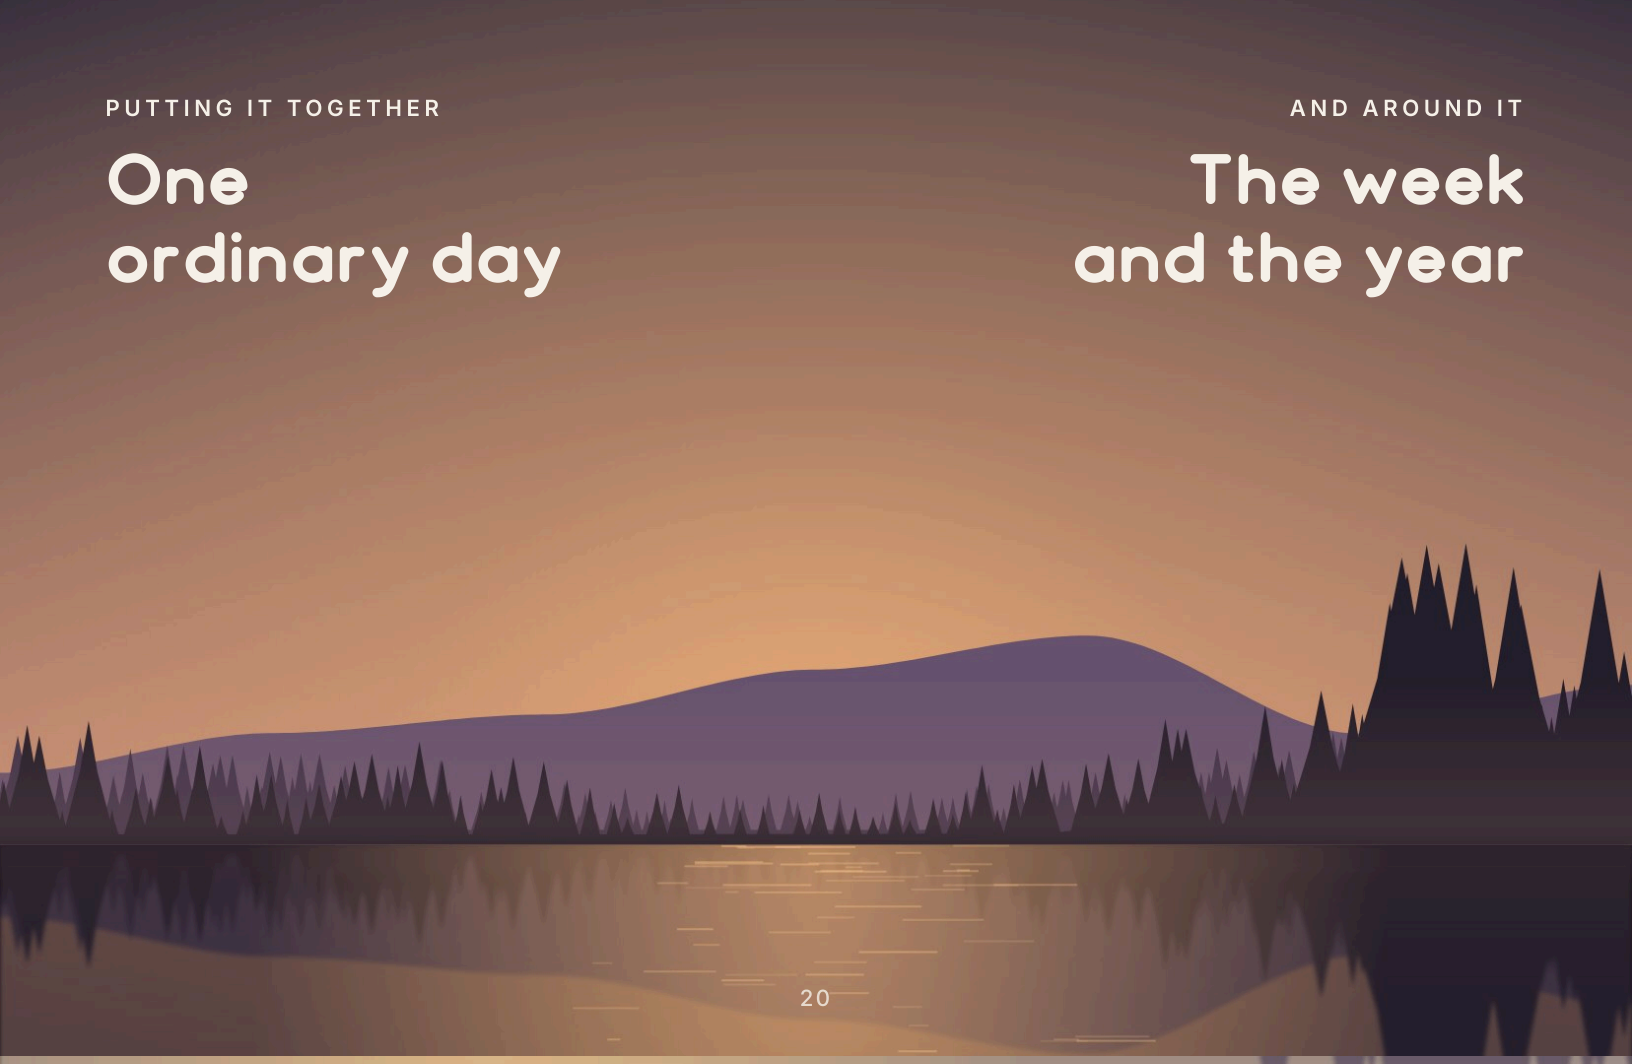

EACH WEEK	An unhurried sauna or warm bath. No phone, no alcohol. Sauna
EACH MONTH	One shared job with friends or neighbours, and coffee after. Talkoot
EACH SEASON	A walk to pick berries or mushrooms, leaving no trace. Jokaisenoikeudet
ANY EVENING	A night in with no plans is allowed. From the Finnish joke word kalsarikännit, minus the drink

PUTTING IT TOGETHER

One ordinary day

AND AROUND IT

The week and the year

20

Kohtuus comes from *kohta*, a spot or a point. It means the right measure: not too little, not too much, and fair to everyone involved. Finns use it every day, for a fair price or a reasonable request. It isn't about going without. It's knowing where enough is, and stopping there.

TRY

- Choose today's ceiling as well as its floor: three things, or a time to stop.
- Before adding something new, ask: is this below what I need, or above it?
- Ask whether what you expect of yourself is reasonable, *kohtuullinen*.

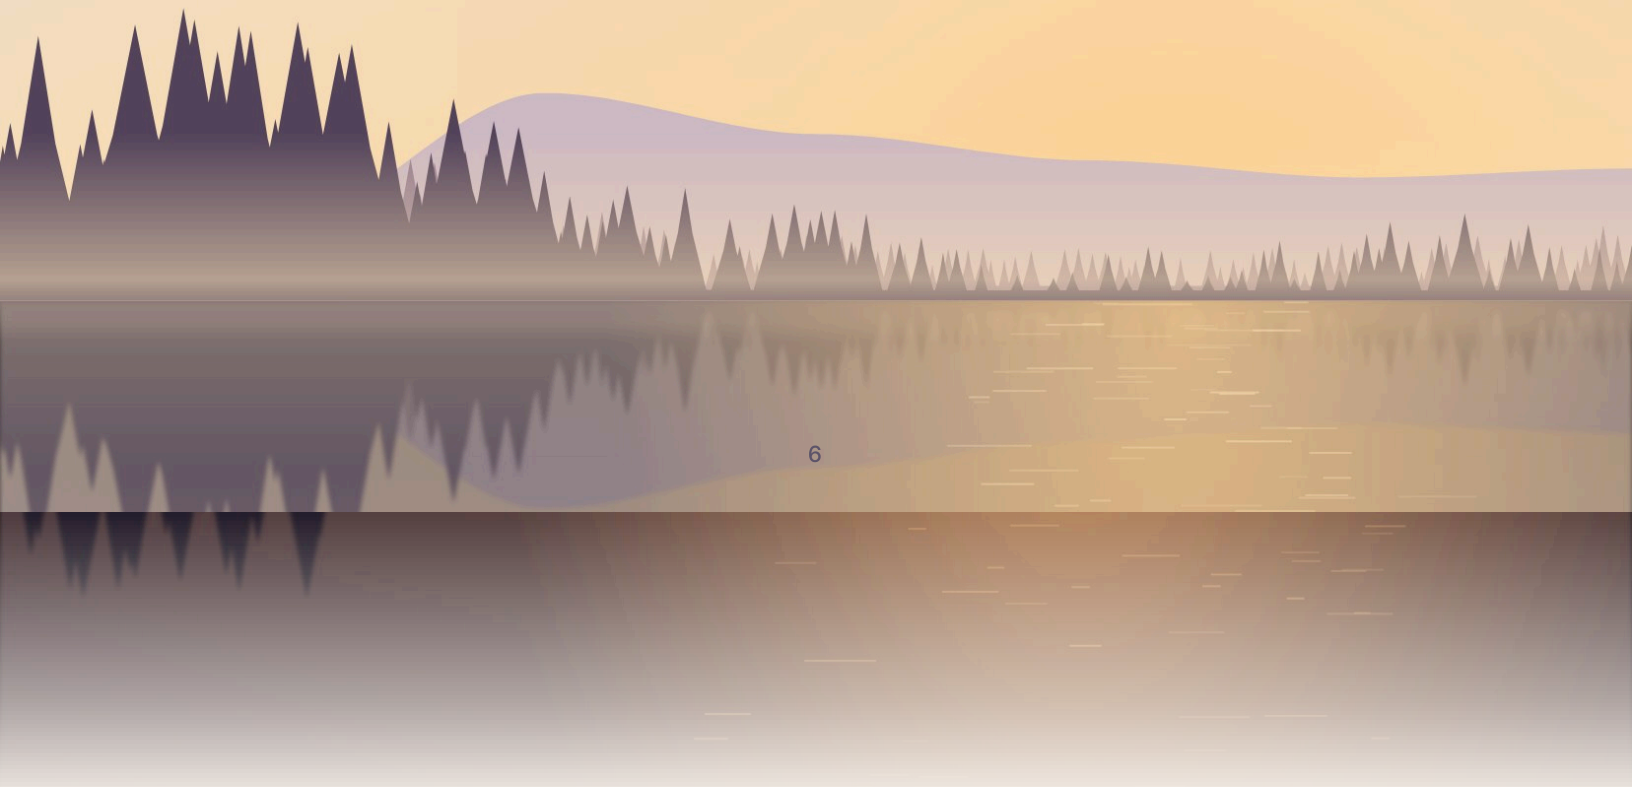

Kohtuus on paras makkaraskin.
Moderation is best, even in sausage.

Smooth, not fast.

2 · WHEN THINGS GO SMOOTHLY

Sujua

SOO-yoo-ah · to go, to come along

6

Sisu is the strength to keep going when something is hard. Researchers who study it found two sides. Used for a hard moment, it helps. Used for every moment, it wears people down. That's why sisu comes last in this book, and in measure.

TRY

- Spend your sisu on the day's single hardest task, then rest.
- Check in: am I still thinking clearly, resting, and being kind?
- Tell someone when you're pushing hard, or ask for help.

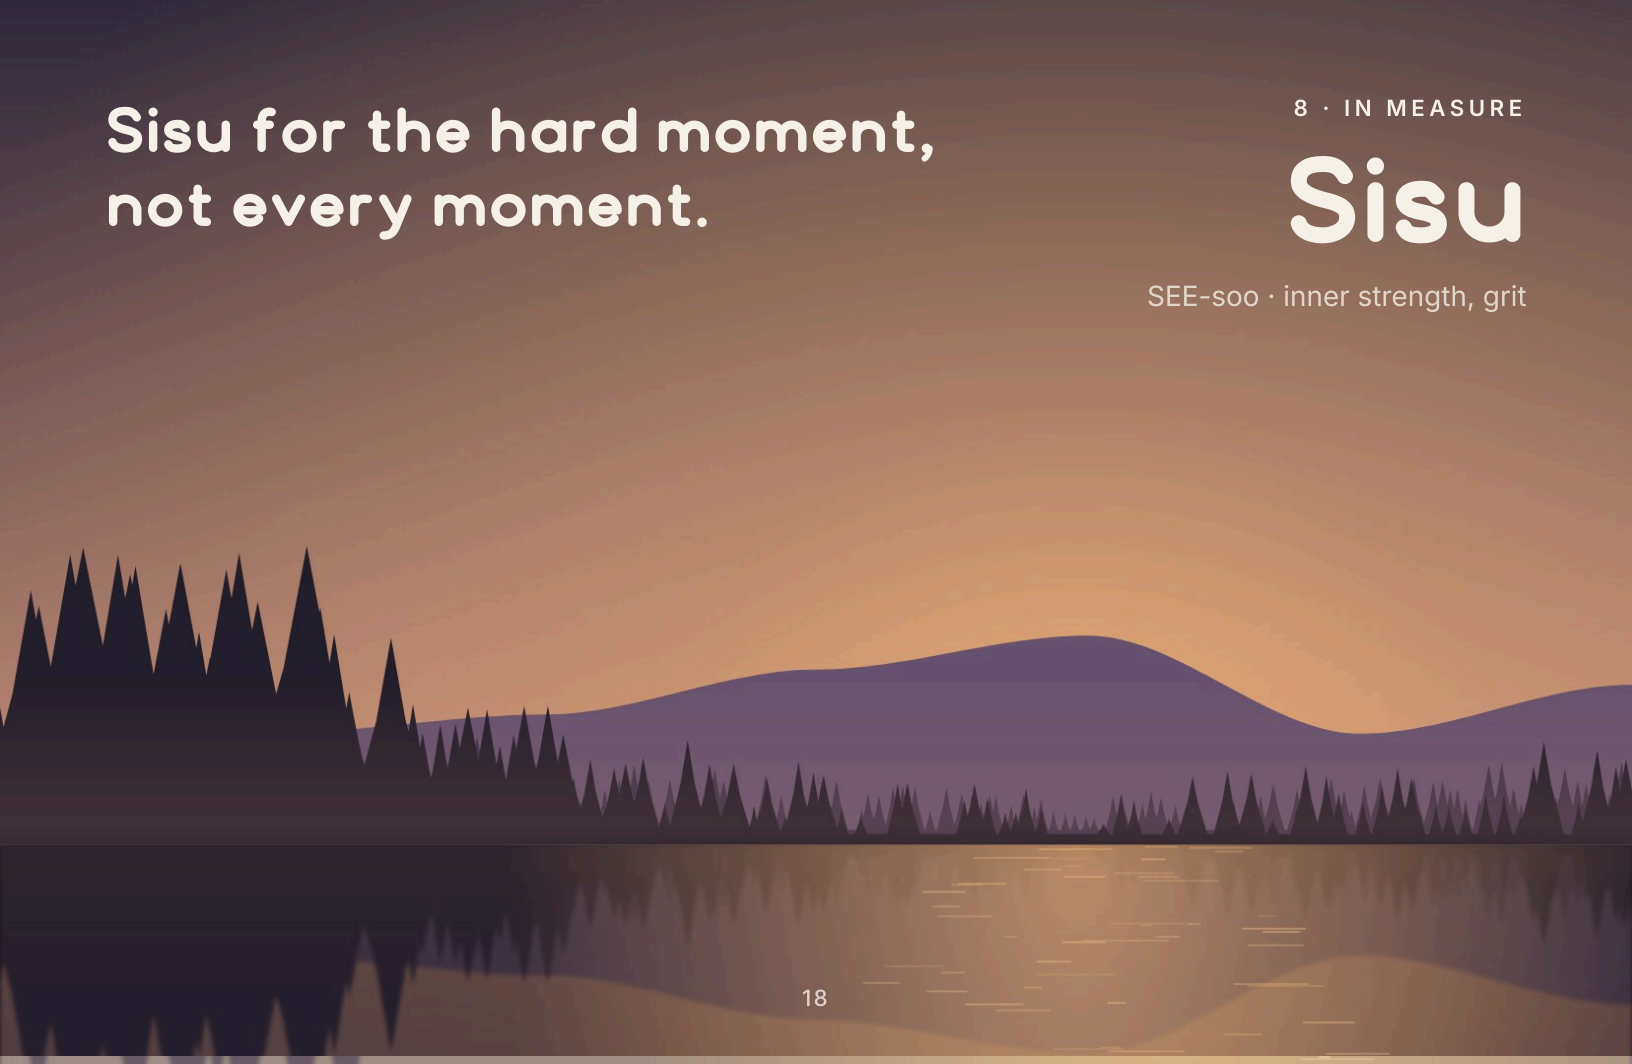

Sisu se on kuin työn tekee, ei miehen voima eikä suuruus.
It's sisu that does the work, not strength or size.

Sisu for the hard moment, not every moment.

8 · IN MEASURE

Sisu

SEE-soo · inner strength, grit

An everyday verb. Said on its own, it means things are going well. Ask a Finn how the work is going and you might hear *Hyvin sujuu*: going smoothly. It's where our name comes from. Smooth doesn't mean fast. It means one thing at a time, a little planning, and no fight with the day.

TRY

- Spend five minutes planning before you begin.
- Ask how this one task is going, not how everything is.
- When you feel rushed, slow the next step, not the whole day.

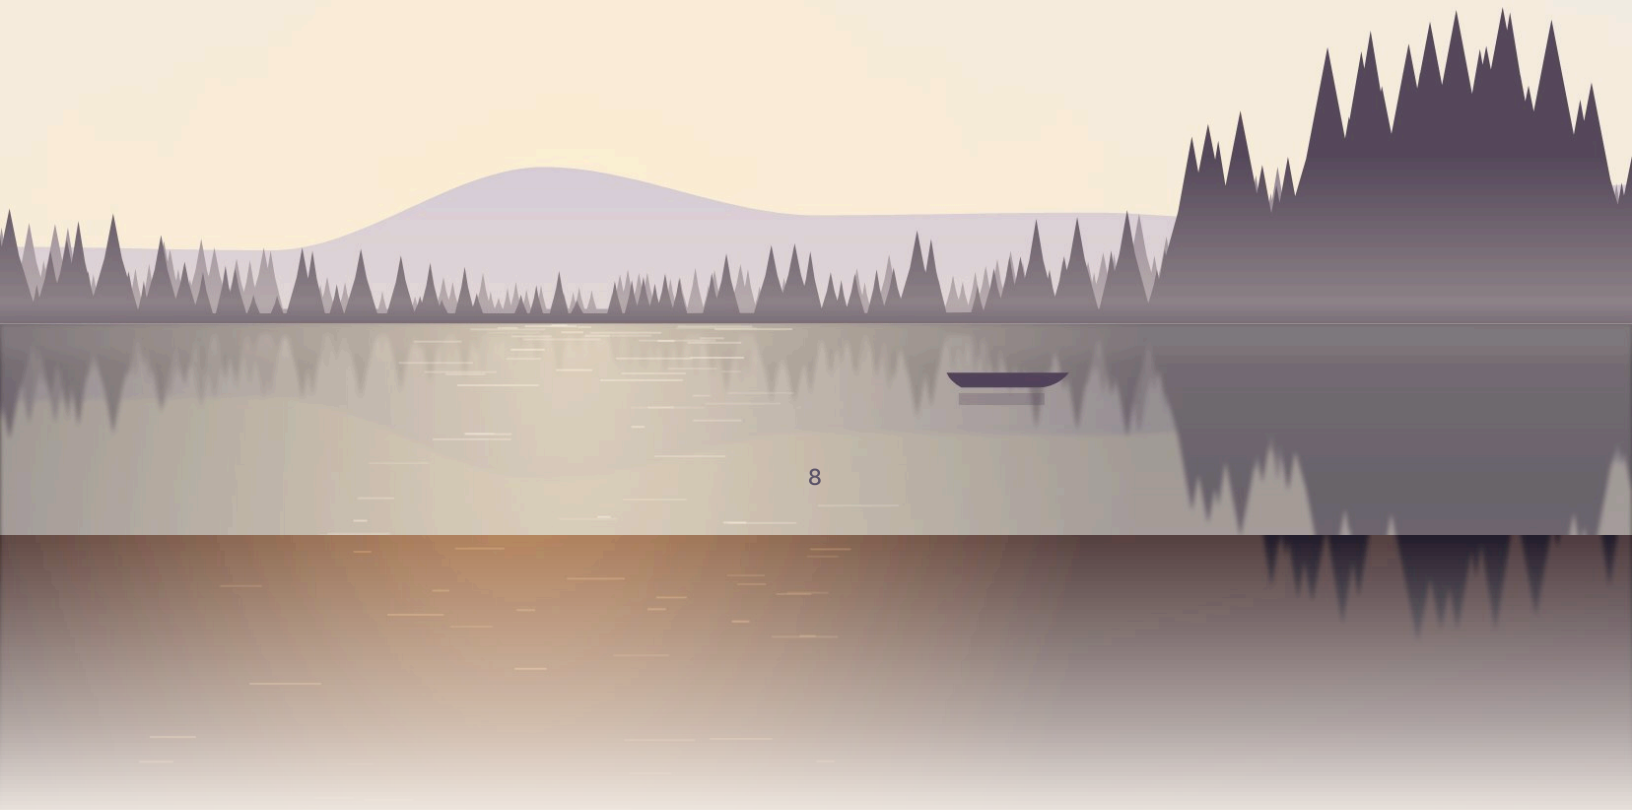

Hyvin suunniteltu on puoliksi tehty.
Well planned is half done.

3 · QUIET AS ORDINARY

Hiljaisuus

HIL-yai-soos · silence, quiet

A pause doesn't need filling.

Finland has more than three million saunas for five and a half million people. Sauna is less about heat than calm: an unhurried hour, quiet voices, steam rising from the stones, then a cool rinse or a dip in the lake.

TRY

- Keep a regular, unhurried sauna or warm bath, with no phone.
- Ask before adding steam, and sit lower if it's too hot.
- Cool down, drink water, and keep alcohol out of it.

Saako heittää löylyä?
May I add some steam? The polite question in a shared sauna.

If you have a heart condition, ask your doctor first.

7 · THE WEEKLY RESET

Sauna

SOW-nah · *löyly*: the steam from the stones

The habit matters more than the heat.

Finns are known for being at ease with quiet. A pause in conversation isn't awkward, and listening counts as taking part. The "silent Finn" is partly a stereotype, but the ideal behind it is a generous one: you don't have to fill every moment, and neither does anyone else.

TRY

- Let a pause in conversation stand.
- Keep one undisturbed hour today, with notifications off.
- When someone asks how you are, answer briefly and honestly.

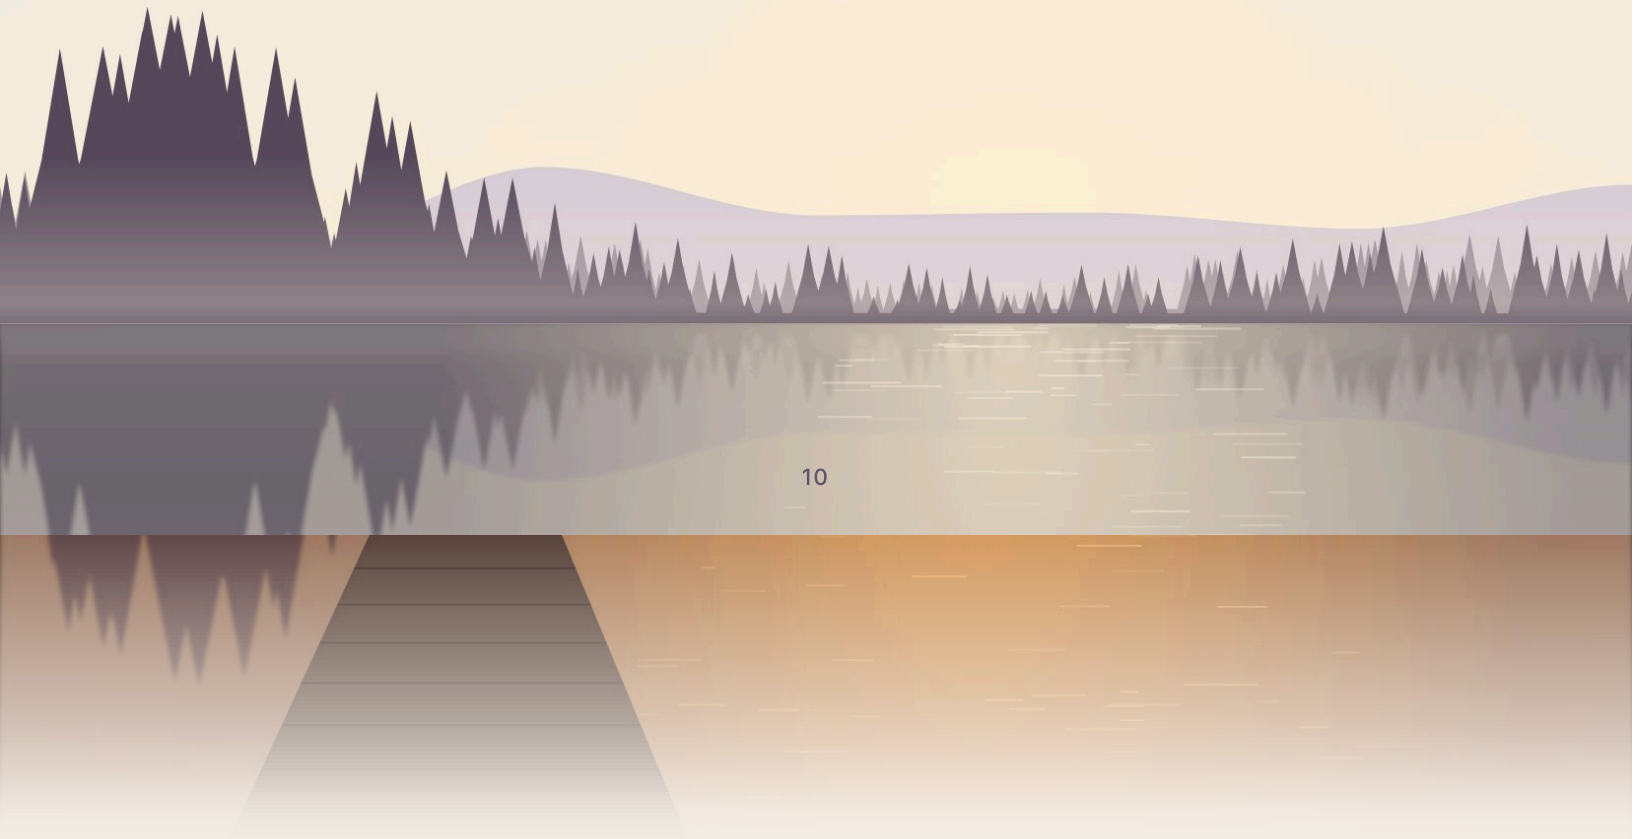

Hiljaa hyvä tulee.
Slowly, good comes.

The nearest green counts.

4 · THE NEAREST GREEN

Luonto

LWON-to · nature · *metsä*: forest

10

Neighbours gather to rake a shared yard, mend a jetty or clean up a shoreline, and whoever benefits puts on coffee and something to eat. A big job gets light, and nobody keeps score. Finns still hold talkoot every spring.

TRY

- Invite a few people to one shared job, with a clear start and finish.
- If it's your job they're helping with, bring the coffee.
- Help out at a local event instead of only attending it.

Many hands, then coffee.

6 · MANY HANDS

Talkoot

TAL-koht · a shared work party

For many Finns, the woods are simply part of the week. Studies in Helsinki found that even a short visit to an ordinary city park or woodland left people feeling more restored than a walk downtown. You don't need wilderness. The nearest trees will do.

TRY

- Sit for fifteen minutes in the nearest green, then take a slow walk.
- Pick a favourite spot, and keep going back.
- Route part of your day past trees.

Niin metsä vastaa kuin sinne huudetaan.

The forest answers the way you call into it.

5 · EVERYONE'S RIGHT TO ROAM

Jokaisen-oikeudet

YO-kai-sen-OI-ke-u-det · everyone's rights

Walk lightly; leave it as you found it.

In Finland you can walk, ski, camp for a night, swim, and pick berries and mushrooms almost anywhere in the countryside, without asking and without paying. The one condition is care: leave no trace, and keep a kind distance from people's homes.

TRY

- Treat the open land near you as an outdoor room, where local rules allow.
- Carry out whatever you carry in.
- Go berry-picking or mushroom-hunting once a season.
